

George M'sapenda

Software Engineer

georgecoopmsapenda@gmail.com | [GitHub](#) | [LinkedIn](#) | [Twitter](#) | [Portfolio](#)

SUMMARY

Technical Director and full-stack software engineer specializing in AI-first products, scalable web platforms, mobile applications, and cloud-based systems. Experienced in leading products from architecture and technical strategy through implementation and production. Strong background across TypeScript, React, Next.js, Python, FastAPI, NestJS, .NET, Flutter, PostgreSQL, Firebase, Supabase, and modern AI/LLM integrations. Passionate about clean architecture, type-safe systems, developer experience, and building practical software that solves real business problems.

SKILLS

Languages: TypeScript, JavaScript, Python, C#, Dart, Ruby, SQL

Frontend: React, Next.js, React Native, Flutter, Vite, Tailwind CSS, HTML5, CSS3

Backend: FastAPI, NestJS, .NET, Node.js, Ruby on Rails, Firebase Functions, Deno Edge Functions

Data & Infrastructure: PostgreSQL, Supabase, Prisma, Firebase, Docker, GCP, Vercel

Architecture & Engineering: REST APIs, tRPC, Hexagonal Architecture, Microservices, Monorepos, Type-safe systems, Offline-first applications, Event-driven systems, ADR-driven development

AI & Data: LLM Integration, RAG, Hybrid Retrieval, Embeddings, Anthropic, Groq, Vertex AI

Payments & Messaging: DPO Pay, Mobile Money, SMPP, SMS platforms, Firebase Cloud Messaging

Testing & Tooling: Vitest, RSpec, Git, GitHub, CI/CD, TypeScript strict mode, Automated testing

EXPERIENCE

HYTEL – US | DUBAI | ZAMBIA | AUSTRALIA | PHILIPPINES

Hybrid

Software Engineer

Nov 2025 – Present

- Build and maintain production software using modern full-stack engineering practices and cloud infrastructure.
- Work across frontend and backend systems, contributing to architecture, implementation, testing, and deployment.
- Develop AI-assisted software solutions using modern cloud services and LLM-enabled workflows.
- Collaborate across product and engineering teams to deliver reliable, maintainable software.

BALLO INNOVATIONS – Lusaka, Zambia

Hybrid

Chief Technology Officer

Dec 2023 – Present

- Lead technical strategy, architecture, and software delivery across the company's products and client solutions.
- Lead development teams and oversee projects from technical planning and architecture through implementation and production.
- Design and build full-stack systems spanning web applications, APIs, mobile applications, CRM platforms, AI services, and analytics.

- Establish engineering practices around architecture, Git workflows, code reviews, documentation, and Kanban-based delivery.
- Translate business requirements into scalable technical solutions while balancing delivery speed, maintainability, and product requirements.
- Develop and maintain core company products including advertising, CRM, messaging, and AI platforms.

TORRE.AI – San Francisco Bay Area, California

Remote

Software Engineer Intern

Jul 2025 – Sep 2025

- Contributed to full-stack product development in a remote engineering environment.
- Implemented product features and improvements across frontend and backend systems.
- Collaborated with engineers to build scalable, user-focused functionality.
- Worked with modern JavaScript tooling, APIs, and software development practices.

SILVERBRAIN AI – Geneva, Switzerland

Remote

Front-End Developer Intern

March 2024 – June 2024

- Developed responsive web applications using Next.js.
- Translated UI/UX designs and wireframes into production-ready interfaces.
- Integrated frontend applications with backend APIs and maintained reliable data flows.
- Debugged and improved existing applications to enhance performance and user experience.
- Participated in testing, sprint planning, stand-ups, and retrospectives.

EDUCATION

MICROVERSE – San Francisco, USA

Oct 2022 – Jul 2023

Remote Full-Stack Web Development Program, Full Time

- Spent 1300+ hours mastering algorithms, data structures, and full-stack development while simultaneously developing projects with Ruby, Rails, JavaScript, React, and Redux.
- Developed skills in remote pair-programming using GitHub, industry-standard gitflow, and daily standups to communicate and collaborate with international remote developers.

UNIVERSITY OF ZAMBIA – Lusaka, Zambia

Degree, Library & Information Science and Demography

Jan 2017 – May 2021

- Double majored in Library & Information Science and Demography.
